

# INNOVATION LEADS THE WAY FOR FUTURE DEMANDS

AND YOU ARE THE RIGHT SOLUTION

IMMEDIATELY

## TOOL MAKER (m/f/d)

The foundation of Seifert Systems was laid in 1965, when engineer Rolf Seifert recognised the need to keep electronics in an industrial environment at a uniformly low temperature level and to safely dissipate any heat loss that occurs.

With the experience of more than 55 years, Seifert Systems has grown into a group of companies with its own subsidiaries in Malta, Switzerland, Italy, USA and Australia. Long-standing partnerships enable us to operate successfully worldwide.

We are currently seeking to fill in a vacancy for a Tool Maker deals directly within our factory in Malta.

### KNOWLEDGE, SKILLS AND EXPERIENCE:

- Minimum 5 years' Experience in Programming and Operating CNC Machinery (ideally on Siemens Controller).
- Able to read and interpret Engineering drawings.
- Proficient CAD software user.
- Knowledge of standard machine shop practices on Injection Moulds and Press Tools, dies and jigs.
- Able to work effectively in a team.

### QUALIFICATIONS:

- Recognised Qualification in Mechanical or Manufacturing Engineering at EQF Level 4 minimum.
- Good working knowledge of English Language (both spoken and written).
- Knowledge of MS applications including Word and Excel.

Previous work experience in industry would be considered an asset.

Application should include a covering letter together with an updated CV and to be sent by email.
