

# INNOVATION LEADS THE WAY FOR FUTURE DEMANDS

AND YOU ARE THE RIGHT SOLUTION

IMMEDIATELY

## TOOL MAKER (m/f/d)

The foundation of Seifert Systems was laid in 1965, when engineer Rolf Seifert recognised the need to keep electronics in an industrial environment at a uniformly low temperature level and to safely dissipate any heat loss that occurs.

With the experience of more than 55 years, Seifert Systems has grown into a group of companies with its own subsidiaries in Malta, Switzerland, Italy, USA and Australia. Long-standing partnerships enable us to operate successfully worldwide.

The Tool Maker will form part of the Tool Shop Department, and the selected candidate will be expected to:

### KNOWLEDGE, SKILLS AND EXPERIENCE:

- Work on CNC milling machines and CNC Lathe
- Work on lathe, OD grinding, surface grinder and all Tool Shop equipment
- Repair and maintenance of plastic injection moulds and press tools
- Monitor the quality of work being produced
- Meet with customers to discuss works
- Record the output of work manufactured for customers
- Check the material required for specific task so items can be ordered
- Report any missing equipment, material or items required for proper and efficient running of tool shop
- Troubleshoot problems on machines and moulds
- Report any health and safety hazards to the area manager
- Prepare programs for the CNC milling machine
- Prepare 3D and 2D design of electrodes for spark erosion machine

### QUALIFICATIONS:

- Trustworthy, honest, and ethical
- An excellent communicator with strong negotiating skills
- Highly knowledgeable of the industry and our products
- Willing and able to learn the operation of new machinery
- Willing to share his/her knowledge and experience with colleagues
- Previous experience will be considered an asset

Interested applicants should send a covering letter together with an updated CV by email to the HR Manager on [hr@seifertsystems.com](mailto:hr@seifertsystems.com) by not later than Monday 4th April 2022.
